RESPONSE TO OFFICE ACTION

Honorable Commissioner of Patents and Trademarks
Washington, D.C. 20231

Dear Sir:

In response to the office action mailed July 17, 1995,
kindly amend the application as follows:

IN THE CLAIMS

Add the following new claims.

12. An electronically programmable remote control vehicle security system, comprising:

sensor apparatus mounted on said vehicle for detecting attempted intrusions to said vehicle;
vehicle antitheft apparatus;
a precoded remote control transmitter for generating and transmitting a non-user-programmable, digitally encoded radio frequency signal representative of a multiple-bit transmitter code, said transmitter including an actuator switch which when actuated by a user causes said digitally encoded radio frequency signal to be transmitted, said transmitter code being precoded so that a system user is not required to encode said transmitter or know said transmitter code;
